1 Citrus medica. Two sorts are here named : but some make the terms synonymous. 2 Marjoram ? The Sanscrit names are also assigned to a species of basil (Ocimum) with small leaves ; and to another sort of citron. 3 Also जंभीरः. 4 Considered by some to be the sacred Basil (Ocimum sanctum). 5 Ocimum gratissimum. 6 Plumbago zeylanica. 7 Or चित्रकः. 8 And other names of fire. 9 Asclepias Gigantea. 10 Or any name of the sun. 11 Confounded by some with Eschynomene grandiflora, but appears to be a different plant. 12 Likewise Fem. एकाकीला. 13 Also वुकः. 14 And वसुकः or वसूकः. 15 Epidendrum Tesseloides and other species. 16 Likewise वन्दका and वन्दका.
