(viz. its rice)
from a river.

12 (देशे) नद्यं वृक्षं वु संपन्नव्रीहिपालितः

सान् नदीमातके

*by rain.

देवमातक (अ यथा क्रमम्)

1 The following are used as adjectives, and vary with the three genders.
 2 Some interpretations make this synonymous with the preceding. 3 Also
 neut. and, according some, fem. 4 The two first terms are exclusively ap-
 plied to a spot abounding in stony nodules; or potsherds, &c. The other two
 are applicable to any thing gritty. 5 The words are here exactly similar to
 the preceding: thus सिकता, सिकतिलः, sandy, as a country; सेवतः, सिकत
 वान् (—वत्), sabulous.
